PPP SPECIAL REPORT
24 HOUR LIVE BROADCAST

WHAT HAPPENS? TO JAPAN?

There are more pressing concerns than Professor Takami now. We'll try to give you a running report of all the developments from our Tokyo studio.

The Diet is currently voting on public security operations under Article 78 of Self-Defense Force Law in Tokyo City.

DIE-T-LIVE

Live from the Diet.

Today's session will be held aboard the following naval ships in the Tokyo Bay.

Die is one danger surrounding the Diet building.

A vote is currently being taken to approve public security operations.

Takami, Yoshino, Kasahara, and Kurama.

And yet, we are not brave or fearless enough to fantasize about conquering human society!

We bring are not meant to stand beneath questioning.

They chose force over discussion. They chose to address the situation with cold murder.

Not the true behavior in this case were the human Japanese government.

When a cingu acts consciously and appropriately, he does not concern himself with humans.

We round no patriotism. Our only position is simple.

Stay calm.
